To File: M350002

I just received a phone call from Brad at United Title. He said that Rio Tinto Unified filed a copy of the 1978 Mined Land Reclamation Contract at the Salt Lake County Records Office on August 16, 2006.

Entry #9814205, Book 9936, page 9501

He was amazed at the amount of land in the permit area and that the area included land sold to developers in the "Daybreak" housing development. He asked if KUC intended to start mining again in these areas.

I let him know that this area is still in a mine permit area and we had just recently talked with them about releasing the areas around Daybreak.

He said since this information has been filed with the records office he has to include this disclosure in his title searches.
